Special Meeting of the Common Council---The Union Hill Avenue Ques-

An adjourned meeting of the Common Council was held yesterday afternoon at 5 'clock. In the absence of the president Mr. Joseph R. Anderson) the body was called to order by Mr. John M. Higgins, and on his motion Mr. George Bargamin invited to preside. Present at roll-call: Messrs. Babcock, Bargamin, Curtis, Davis of Madison Ward, Davis of Marshall Ward, Foster, Higgins, Jenkins, Johnson, Lauer, Manson, Metzger, Oliver, Powers, Pulliam, Purcell, Straus, Charles E. Whitlock, R. H. Whitlock, and Wingfield.

The Chair announced that the object of the meeting was to consider the report of the Committee on Streets in relation to the Union Hill avenue.

It was stated by the Chair that President Anderson was detained by distress in his family, and that Mr. Christian was detained from his seat by sickness. Mr. Oliver said that Mr. Newell was ab

Fire in a Wholesale Dry-Goods House on Main Street.-The Loss and Insurance, and How the Fire Originated. Yesterday morning at five minutes to 7

o'clock an alarm of fire was sounded from Station 13, corner Twelfth and Main streets, and a few minutes later an alarm was turned in at Station 31, corner Main and Fourteenth streets. Summons to the firemen from Box 13 (the centre box of the city) brings out the entire department, and being located in the very heart of the business portion of the city a signal of fire from that quarter is always heard with grave apprehensions. A dense volume of black smoke was seen issuing from the upper windows and ventilators of the large wholesale dry-goods house of M. Millhiser & Co., No. 1309 Main street, and in a very brief period a crowd gathered in front of the building ready to render all the aid possible. In three minutes from the time the alarm was sounded one of the hose companies and several steamers were on the ground and ready for work. The store had not been opened for business, and the gas ground and ready for work. The store had not been opened for business, and the gas was still burning—one burner in the front and one in the rear portion of the street floor. Upon the arrival of the hose company the small glass doors at the side of the main entrance were broken in, and the men with one or more plug-streams ascended the main stairway and ladders from the outside through the blinding smoke, in order to ascertain the location of the fire. By this time the Chief Engineer of the department, Captain Ainslie, arrived, and, exercising his first duty, directed the top floor to be ventilated by breaking out the front windows and cutting a hole in the tin-roof, so as to let out the smoke. In the mean time the steamers commenced work, and in a very few minutes, the upper windows having

few minutes, the upper windows having been opened and a hole made in the roof, the fire was put out, not, however, until the second and third floors had been literally flooded by water. The extent of the burning was a hole about fifteen feet square in the upper floor,

a small hole in the roof, and the destruction of a few boxes of shoes, shawls, &c., on the floor next below the upper floor. The damage to the goods by water will reach \$7,000 or \$8,000, The building is owned by James W. and

W. H. Allison, and was damaged by fire and water to an amount not exceeding \$500. It is insured for \$10,000 in the Mutual Assurance Society of Virginia. The stock was insured as follows:

On the first or basement floor the firm had stored their domestic goods and packages, which were injured by water, On the street or second floor the office and main stock of dry goods, gum-blankets, &c., were located. It is the opinion of the Chief Engineer fact) that the fire originated among the shawls and woolen goods on the fourth floor from spontaneous combustion. Indeed, during the day one of the boxes was opened and fire was found among the woolen goods. It is believed by others that the fire broke out first on the top floor, and, burning through the floor, dropped down on the woolen goods and boxes.

THE MALE ORPHAN ASYLUM .- Owing to the rapid growth of this asylum the means heretofore provided for its support will fall short by two thousand dollars this year. The whole number of persons, boys and employés, to be supported by the funds of the society now number nearly ninety. The ordinary income is about \$4,000. To feed, clothe, and educate say eighty orphans, at \$80 per annum for each, would require ten per cent. per annum in the number of boys, and hence a yearly increase in the expenses. Eleven thousand dollars of the stocks held by the Society pay no interest.

The President stated in his late report that no more boys could be received till means for their support are provided. The Board has therefore authorized the appointment of an agent to call on the citizens of Richmond to aid in the maintenance of this institution. It is hardly probable that our citizens will say to this society "Turn away thrown into its followers, although the the next orphan boy who asks for admisusually be expected from cold water thrown | vember; whereupon Mr. Fitzpatrick ap-

sion." The President has done well in engaging Captain Richard E. Frayser to represent the asylum to our citizens. We trust and believe he will be cordially received by all classes. Twenty dollars constitutes any one life-member, and five dollars per annum an annual member of the Society.
